

Salman Memon

FULL-STACK DEVELOPER

OBJECTIVE

I am a proficient Full-Stack Developer with a strong background in front-end and back-end technologies. I specialize in building responsive, performance-optimized websites and web applications using HTML, CSS, JavaScript, React, Node.js, PHP, and more. With a keen eye for design and a passion for problem-solving, I create intuitive user experiences that align with business goals.

I thrive in collaborative environments, working with cross-functional teams to deliver clean, efficient code. My goal is to develop impactful digital solutions that drive success. Let's connect to create innovative projects together!
